**Items needed for Project:**

- Sweatshirt or bag
- Mylar balloons – see below for colors

**Project Description**

This month we'll be working with Mylar. Using Mylar is an easy way to add dimension and a bit of bling to your embroidery. We'll be using the Mylar instead of fabric for appliqué. The designs can be used on anything where you would normally use an appliqué design. The club designs would be cute on a sweatshirt or a bag.

Mylar is available from online retailers like Nancy's Notions, however I went the easy route and used Mylar Balloons – I got mine at the Dollar Store and Party City

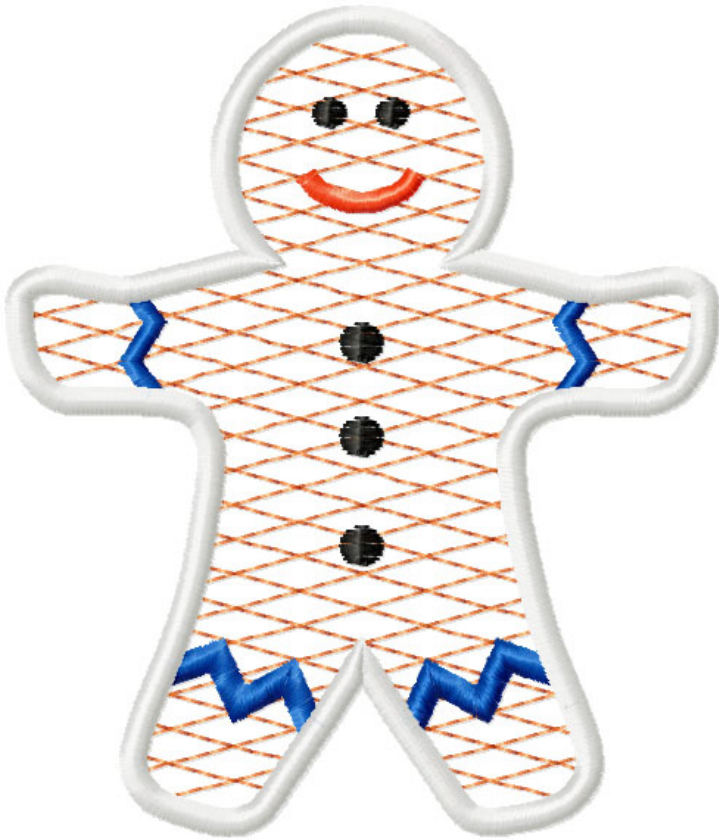

Bonus Design Set for 5 x 7 hoops – Available for Purchase – \$20
