### Materials needed:

Front - 3 1/2" square  
Back - 3 1/2" square  
5/8" to 1" Fold Over Elastic (FOE) - 12" for a standard paperback book

### PROJECT DESCRIPTION

This is a practical project that is 2 things in one - First, it's a book mark, second, it's a gift tag! This is basically a patch with Fold Over Elastic (FOE) attached at the top and bottom that forms a big elastic band. The elastic is placed around the pages and the patch sits on the front of the book.

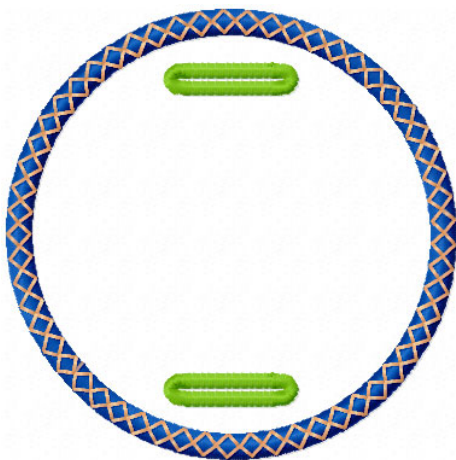

This project is all done "In the Hoop" and is nicely finished on the back with no raw edges showing.

The shapes are cut using Go! dies - 3" circle, 3" Heart, the large Rose of Sharon from 55045 and the 3" hexagon

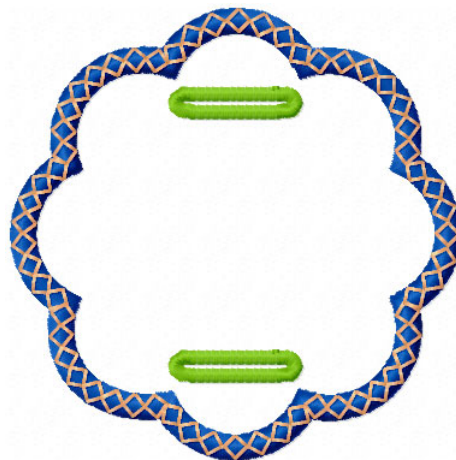

5 of the bonus designs have button holes that allow for the FOE to be adjustable

### BONUS DESIGNS - 7 designs

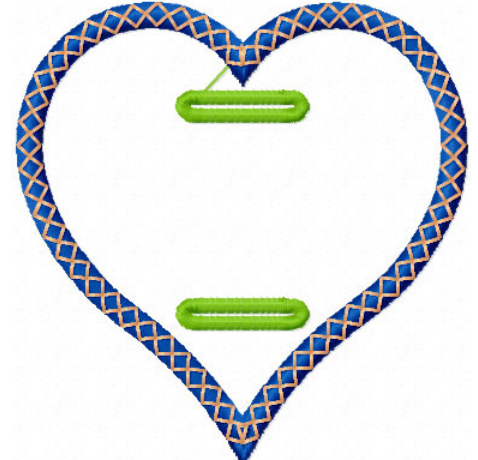

The 5 designs with button holes are for 5/8" Fold Over Elastic - you will also need a single hole cord lock  
Same Go! Dies as the class designs plus the 3" Heart
